### **2. Applicability of terms and conditions**

- 2.1. Access to the Parking Facilities shall only be granted in accordance with these terms and conditions, which form part of each Parking Agreement concluded between the User and Quick Parking. These terms and conditions also apply to (reservations of) other services provided by Quick Parking, including (but not limited to) Valet Parking.
- 2.2. Parking Agreements are concluded:
  - a. by holdership of a Proof of Parking;
  - b. by means of a reservation;
  - c. by means of using the Parking Facility.

In the event of a dispute with regard to whether or not the Parking Facility is being used, the (vehicle of the) User's presence within the Parking Facility or the PMS registration shall be the decisive factor.

### **3. Reservations**

- 3.1. The User can only book reserved parking by completing the booking form for the desired parking product through the website of Quick Parking (or through the website of a third party) against the mentioned rate. A User is entitled to park at the Parking Facility that is mentioned on the reservation and not at any other location.
- 3.2. The reserved parking bookings must be made not later than 24 hours prior to the Parking Period start date and is subject to availability. If parking places are not (or no longer) available, Quick Parking shall not accept the booking and notify the User thereof within the shortest possible term.
- 3.3. The User must state the start and end dates of the Parking Period on the booking form. Once the User has made his choice, the full specifications are shown, accompanied by a statement of the Parking Fee due. The User is then asked if he wishes to proceed to the electronic payment facility to pay the Parking Fee due. The User can also opt for payment at the Parking Facility. If the User then clicks on the button to finalise the reservation and accept these general terms and conditions, the Parking Agreement with Quick Parking is concluded and the User shall be subject to the reservation he made vis-à-vis Quick Parking.
- 3.4. In the event of an online reservation, no Parking Agreement will be concluded if the electronic payment is refused. The User will be notified hereof.
- 3.5. After having finalised the reservation or booking, Quick Parking shall confirm this by means of an e-mail message sent to the e-mail address submitted by the User. The confirmation serves as proof of the existence and details of the Parking Agreement. The reservation can not be amended. The User can cancel the reservation free of charge up to twenty (20) minutes before the Parking Period. If the User cancels later, the already paid Parking Fee will not be refunded.
- 3.6. Quick Parking may provide reserved parking users with promotion codes. The use of promotion codes is strictly personal and solely intended for the purpose for which they were issued, i.e. obtaining a one-off discount for a reserved parking booking. In the event of misuse of the promotion code, the discount awarded can be claimed back by Quick Parking.
- 3.7. Entering the Parking Facility at a date/time earlier or later than the Parking Period start date or exiting the Parking Facility at a date/time earlier or later than the Parking Period end date is possible, subject to the following conditions:
  - a. If the User, who has made a reservation, enters the Parking Facility at an earlier date/time than the start date/time of the Parking Period, the User must pay the full daily rate applicable at that time for the number of days up to the start of

- the Parking Period. This sum is indivisible, which means that it is not broken down by part days or other time units. The amount charged on account of exceeding the Parking Period must be paid by the User separately.
- b. If the User, who has made a booking, enters the Parking Facility at a later date/time than the start date/time of the Parking Period, it does not affect the end date/time of the Parking Period; the end date/time remains unchanged. Nor is the User entitled to a refund of any part of the Parking Fees paid.
  - c. If the User exits the Parking Facility with his vehicle at an earlier date/time than the end date/time of the Parking Period, the Parking Period ends on the date/time at which the User actually leaves the Parking Facility with his vehicle. Entering and exiting again during the Parking Period is not therefore possible: the Parking Period ends automatically the first time that the User exits the Parking Facility. The User is not entitled to a refund of any part of the Parking Fees paid.
  - d. If the User exits the Parking Facility at a later date/time than the end date/time of Parking Period, he shall be charged for the time that he exceeds the Parking Period. The User must pay the full daily rate applicable. The amount charged on account of exceeding the Parking Period must be paid by the User separately.
- 3.8. Quick Parking will process the personal data entered by the User on the personal data page of the website and data relating to his surfing and clicking behaviour and transactions via the Website. Quick Parking complies with the statutory regulations laid down in the Wet Bescherming Persoonsgegevens (Personal Data Protection Act).
- 3.9. The User's data is saved in a customer file and is used to finalize the reserved parking booking, including payment and customer service. Quick Parking also uses the data to analyse the User's surfing and clicking behaviour and transactions and to compile customer profiles based on this information. These profiles are used by Quick Parking to perfect the range of products and services on the website and to create special offers tailored to the customer based on Quick Parking's full range of products and services.
- 3.10. If the User objects to Quick Parking collecting and analysing his data for making special offers tailored to him, he can submit a notice of objection by sending an email to [info@quickparking.nl](mailto:info@quickparking.nl). If the User wishes to delete his data from the Quick Parking files, he can make this known by using the same email address.
- 3.11. Quick Parking has outsourced the processing of credit card transactions of Users to Adyen. The personal data of the Users needed to process the credit card transactions may therefore be made available to Adyen by Quick Parking. Adyen, in its capacity as processor, shall process this data on behalf of Quick Parking for the

sole purpose of completing credit card transactions. Adyen shall not disclose this data to third parties other than the financial institutions linked to the method of payment that has been selected. The User's bank account or credit card statement may state the name of Adyen in connection with the above.

#### **4. Parking Facility and access**

- 4.1. Only a valid Proof of Parking entitles a User, motor vehicle or person to access the Parking Facility.
- 4.2. A random space within the Parking Facility shall be made available to the User, unless the User and Quick Parking have entered into an agreement in advance under which a specific space or area within the Parking Facility has been designated.
- 4.3. At some Parking Facilities, an electric charging facility may be offered if an electric charging parking space is available. At the electronic charging facility, a user's manual shall be available. Quick Parking is unable to guarantee that electric charging is always available and it is not at all times possible to reserve a parking space for electric charging. It is the responsibility of the User that the vehicle has got sufficient energy or an alternative fuel source available at the time of parking to be able to exit the Parking Facility. Quick Parking is not liable for any damages that may result from using the electric charging facilities.
- 4.4. Entering and exiting the Parking Facility is only possible at opening hours. Opening hours are determined by Quick Parking and Quick Parking can amend opening hours at all times.
- 4.5. Only vehicles not exceeding 5 metres in length and 1.90 metres in width and weighing less than 2,500 kilograms shall be granted access to the Parking Facility. The height of these vehicles must not exceed the height indicated at the entrance to the Parking Facility.
- 4.6. It is prohibited to enter or access the Parking Facility with any type of trailer, including caravans.
- 4.7. If the key of the motor vehicle is handed in at the Parking Facility, Quick Parking may at all times relocate the motor vehicle, if such is deemed necessary by Quick Parking.
- 4.8. Quick Parking is entitled to refuse access to the Parking Facility to any vehicle if such is deemed appropriate by Quick Parking, with due observance of the principle of reasonableness and fairness. Reasons for such refusal shall include knowledge or suspicion on the part of Quick Parking that a vehicle may cause damage to its surroundings, in view of its size and/or weight or items it is carrying in the broadest

sense. Quick Parking is entitled to refuse vehicles that use LPG as fuel, if the Parking Facility is not equipped.

- 4.9. Quick Parking is entitled to relocate vehicles and/or persons within the Parking Facility and/or remove, or arrange for the removal of, any vehicle from the Parking Facility, if such is deemed necessary by Quick Parking. The condition of a vehicle may constitute grounds for Quick Parking to remove, or arrange for the removal of, this vehicle from the Parking Facility, without this resulting in any liability on the part of Quick Parking. Quick Parking must observe the principle of reasonableness and due care when assessing the need to move and/or remove persons and/or vehicles.
- 4.10. Vehicles that have been parked contrary to the applicable regulations may be removed by Quick Parking at any time at the expense and risk of the User and be placed outside the Parking Facility if necessary.

## **5. Instructions for use**

- 5.7. Vehicles may not be parked in the Parking Facility for more than ninety (90) consecutive days without the prior written consent of Quick Parking. If this period is exceeded, the User shall be liable to pay, in addition to the Parking Fee for parking during the ninety (90) day period, a Parking Fee for each day, or part thereof, that the vehicle belonging to the User is present within the Parking Facility following expiry of the aforementioned period, plus an amount of € 25 per day, without prejudice to the right of Quick Parking to demand additional payment of costs, damages and interest and without any notice of default being required.
- 5.8. If the User has left a vehicle in the Parking Facility and, despite a written request or demand by Quick Parking, refuses or is unable, for any reason whatsoever, to remove that vehicle, Quick Parking shall be entitled to remove, or arrange for the removal of, the vehicle from the Parking Facility within fourteen (14) days of the request or demand and to store the vehicle in question at another location.
- 5.9. If, despite reasonable effort, it is not possible to obtain the address of the User, a clearly visible written request for removal placed underneath the windscreen wiper of the vehicle shall suffice. If the User fails to collect the vehicle within three (3) months of the request or demand, Quick Parking shall be entitled to sell or destroy the vehicle. In that case, Quick Parking is obliged only to pay the User the proceeds of the sale less the Parking Fee due, any fines due and any costs incurred by Quick Parking in connection with the removal and temporary storage of the vehicle. If the Parking Fee due, any fines and the aforesaid costs incurred by Quick Parking exceed the proceeds from the sale of the vehicle, the User must pay Quick Parking the difference.

## **6. Parking Fee and payment**

- 6.1. The User must pay a Parking Fee in order to use the Parking Facility. The Parking Fee is calculated in accordance with the rates set by Quick Parking and the period in which the motor vehicle has been in the Parking Facility. For determining this period, the period indicated by PMS will be decisive.
- 6.2. Rates are set out on Quick Parking's website. Quick Parking reserves the right to change these rates.
- 6.3. If the User has not paid the Parking Fee beforehand, the Parking Fee must be paid by credit card on exiting the Parking Facility, or by payment at a pay machine before exiting the Parking Facility. After payment at a payment machine, the User

is entitled to remove the vehicle from the Parking Facility within 60 minutes from the time of payment. If the User fails to remove the vehicle from the Parking Facility within the aforesaid period, a new Parking Period commences in respect of which a new Parking Fee is payable. Following payment for the new period, the procedure as described above is repeated.

- 6.4. It is prohibited to remove a vehicle from the Parking Facility without paying for use of the Parking Facility or without the permission of Quick Parking. Exiting without payment, e.g. by quickly following another vehicle under the barrier, is explicitly not allowed. In that case, the User will owe the Parking Fee and additional compensation of damages of € 500,-. The rights under this clause do not impair Quick Parking's rights to claim compensation of actual (consequential) damages or losses.
- 6.5. Quick Parking is entitled to (temporarily) refuse the User and/or the vehicle access and usage of any Parking Facility.

- 7.6. Quick Parking strives to have the vehicle ready for the User as much as possible in advance, but the User may have to wait for their vehicle upon their return. Quick Parking is not liable for any damage to the vehicle that arises after it is handed in. In addition, Quick Parking is not liable for any loss suffered by the User due to delays. Upon receipt, Quick Parking will record the mileage and the condition of the vehicle.

  - 7.10. Quick Parking reserves the right to refuse to hand over the vehicle if the User is obviously inebriated.
  - 7.11. The rates, rate components and any surcharges applied by Valet Parking are listed on Quick Parking's website. The minimum rate for Valet Parking is the rate for one day. Upon return, the User must pay in cash, by debit card or by credit card, unless the reservation was made on the basis of a Valet Parking subscription or via an agent on the basis of an invoice, in which case the payment will be made through the Valet Parking subscription or via the agent, respectively.
  - 7.12. The User can submit complaints about the custody of the vehicle to Quick Parking for up to fifteen (15) minutes after the vehicle is returned, provided that the User has not moved the vehicle from the location at which Quick Parking returned the vehicle to the User.   - 7.13. The User is responsible for ensuring that all equipment (electronic equipment) is switched off. The User agrees to Quick Parking employees making use of the equipment insofar as this is required for relocating the vehicle, as well as to those employees making changes that are required for the safe use of the vehicle, for example to the position of the chair and the mirror. If the User's vehicle does not start, Quick Parking will take no measures to cause the vehicle to start, unless the User has provided prior written permission.
  - 7.14. The User declares that there are no items in the vehicle, such as weapons, drugs, stolen items and animals. If Quick Parking finds items in the vehicle that are forbidden or potentially dangerous, Quick Parking will report this to the police.
